

Hitachi Energy has announced that SEV, the power company serving the Faroe Islands, has selected an e-mesh PowerStore Battery Energy Storage (BESS) solution as part of its efforts to achieve energy independence ...

The Republic of Ireland Battery Storage Project Database report forms part of a broad portfolio of solar PV and battery storage market reports across the UK and the Republic of Ireland - sectors that have been researched by our analyst team for more than 10 years.

ILI Group has a portfolio of over 4.7GW energy storage projects, including 2.5GW of utility-scale battery storage and 2.5GW pumped storage hydro. In July, the group submitted a Section 36 planning application for a 1.5GW pumped hydro energy storage (PHES) project called Balliemeanoch, with a planned connection date in 2031.

Saft will provide a modular, plug-and-play 8MW/8MWh BESS to Neoen's solar PV project in Antugnac, southern France. The battery storage will perform frequency regulation ancillary services for the grid of national transmission operator RTE after Neoen won a seven-year contract through RTE's AOLT tender process.

The Townsite Solar Project - Battery Energy Storage System is a 90,000kW energy storage project located in Boulder, Nevada, US. The rated storage capacity of the project is 360,000kWh. Free Report Battery energy storage will be the key to energy transition - ...

Hitachi Energy has been selected to supply a large-scale battery energy storage system (BESS) for a wind farm in the Faroe Islands, as the remote archipelago targets a goal of 100% renewable energy. The North Atlantic islands, between Norway and Iceland and north of Scotland, are home to about 50,000 people.

Strata, with its western headquarters in Phoenix, has a strong presence in the region, and more than 6GW of solar PV and 24 gigawatt hours of battery storage projects under development. In 2023, Strata Clean Energy secured a 20-year tolling agreement for the Scatter Wash project with Arizona Public Service (APS).

The Faroe Islands have made a significant leap in their renewable energy journey, thanks to the integration of a battery energy storage system (BESS) from Hitachi Energy. During 2022 and 2023, the BESS has ...

Last week, it was revealed that on a BESS installation in the Faroe Islands that doubled the utilisation of a wind farm. The BESS was provided by the energy solutions arm of Japanese conglomerate Hitachi. In January, a solar and storage project with a 2.1MW BESS broke ground on the island of Anegada in the British Virgin Islands.

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

Investment manager Quinbrook Infrastructure Partners has commenced construction on Cleve Hill, a solar plus battery storage project in the UK. To be located in Kent, the 373MW solar plus 150MW battery storage project will be completed by the end of 2024 and will be the largest such project in the UK.

This includes the sale of its 50MW Fordtown battery storage project in Kintore, Aberdeenshire in October, and the sale of its 50MW utility-scale battery project in Fife, Scotland in March. These deals have taken the company's total of funded projects to 250MW, with a further 750MW being prepared for market over 2021-22.

Hitachi Energy has been selected to supply a large-scale battery energy storage system (BESS) for a wind farm in the Faroe Islands, as the remote archipelago targets a goal of 100% renewable energy. The North ...

5 ???&#0183; The fight against a large-scale solar and battery project in central Victoria is heating up after a local council sided with upset residents and voted to oppose the increasingly controversial ...

The Nauru Solar Power Development Project - Battery Energy Storage System is a 5,000kW energy storage project located in Nauru. The rated storage capacity of the project is 2,500kWh. Free Report Battery energy storage will be the key to energy transition - find out how.

The UK's "largest" solar and battery energy storage project, Cleve Hill Solar Park, has started construction, Quinbrook Infrastructure Partners confirmed. The specialist global investment manager revealed the Kent-based project, which consists of 373MW of solar and "more than" 150MW of battery energy storage, is expected to be fully ...
