Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

Can Barbadians earn passive income from solar panels?

Now a very similar model is available in Barbadoswhich allows Barbadians to own solar panels within an operating solar project and thereby earn solar passive income for 25 ...Continue reading -> Getting involved in the funding of the global solar power transition has never been easier.
