Though grid-tied solar panel systems are more popular among Singapore homeowners, many are choosing to go off-grid instead. And we're not surprised -- cutting ties with the utility company is certainly appealing, and who doesn't like the idea of freedom from monthly electricity bills? However, installing a stand-alone solar array isn't the right choice for ...

Solar Era is a premier solar power installation and maintenance company. We offer maintenance, warranty, and performance evaluation services on Photovoltaic (&quot;PV&quot;) systems for our clients, as well as systems installed by other solar installers which are no longer in business. We are committed to deliver smart, efficient solar energy to all of our clients, making sure every client ...

You don't need optimal conditions for your solar power system to be a great investment. One of the biggest myths about the financial viability of solar is that it requires a really sunny location and a east facing roof. While these may be ideal conditions, folks in Singapore with roofs that face other points on the compass, such as north, south or west-facing roofs, can still ...

Your solar system's renewable energy output and financial potential often go hand in hand, so a properly monitored and maintained system is essential to seeing a positive return on your investment. Remote system production monitoring provides insight into how your system is performing and can help detect equipment failures and damage or other difficulties that could ...

SMA is a solar icon. The German company was established in 1981, which is prehistoric in the world of solar, and for a long time the SMA string inverters, branded Sunny Boy and Sunny Tripower, were head and shoulders above any other on the market. In Singapore, from when the solar boom started around 2008 if you were to ask any solar installer which the best string ...
