

A solar land lease is a contract between the property owner and Solarcollab that allows us to build a solar farm on your property in exchange for lease payments to the landowner. Each land lease contract is different, but generally the contract is for 20 years and sometimes there may be an option to extend the term for an additional number of ...

If you are a New Mexico landowner that has 50 acres of land you might earn as much as \$50,000 a year renting your land to host a solar farm. If you owned the same solar farm the annual revenue could be as high as \$292,000 a year depending on how you structure and develop the solar farm.

I've been contacted by a solar farm company who wants to lease my land for \$2,500 per acre with a 2% yearly increase for a 29-1/2 year lease, and at the end, the option to extend the lease for 5 additional years. The company flat out told me the area is very desirable for them on account of the fact it is close to needed infrastructure for ...
