Solar panel prices have dropped significantly in recent years and government incentives remain strong making larger solar systems more attainable than ever, because of this, the 5kW solar system has become one of Australia's most popular sized systems and delivers incredible value for money and a fast return on your investment.

Ecosun Aruba works with the very highest quality materials. We only use well known and reputable brands for our panels and inverters. Furthermore, all our solar panels are certified for usage in salty and windy environments like we have on Aruba. But even our cables and connectors are carefully chosen for their quality. We want our systems to last.
