What are the best solar monitoring apps?

The SolarEdge monitoring application is another popular app when it comes to tracking your solar system's output and energy production. It's also easy to access from any internet-enabled devices, including computers or tablets.

Do solar monitoring apps need a datalogger?

Most solar monitoring apps require a datalogger installed on your system. This device collects data from your inverter and transmits it to the app. Some newer systems might have built-in monitoring capabilities, eliminating the need for an additional device. Are these apps expensive? Costs vary!

Why should you use a solar monitoring app?

That's where solar monitoring apps and applications come in. They act like watchful eyes, constantly collecting data from your system and presenting it in an easy-to-understand format. But Why Use? Real-time performance: See how much energy your panels are generating right now, compared to yesterday, last week, or even a year ago.

Do solar energy systems need to be monitored?

Having a solar energy system installed isn't just about dropping a few panels on the roof and praying for sun. Solar energy systems have to be carefully monitored to ensure everything is working correctly, your system is in good working order, and you aren't overloading the grid. So, what monitoring app should you choose?

What is a solar monitoring system?

Solar monitoring systems provide a real-time snapshot of solar energy production data from your home solar system. A good monitoring system can tell you when one or more panels (aka "modules") isn't producing as much energy as others, or whether there's some sort of electrical fault causing you to miss out on precious kilowatt-hours (kWh).

Are smartphone applications useful in solar PV energy?

These multifarious capabilities enable new approaches for measuring and visualizing data that are seldom available in conventional computing platforms. In this study, 100 accessible smartphone applications (apps) developed in the solar PV energy sector were investigated.
