Solar Products Distributors Distributors are those companies working as big warehouses that served as the middlemen between the consumer/customer and the manufacturer. Typically, in distribution, a company is handling the sourcing, stocking and logistics but nowadays they are also helping manufacturers in product designing and solving other business conflicts. Aside ...

Using a solar battery can help users to reduce the amount of electricity they would normally buy during peak hours. The battery can store the extra energy produced from solar panels during the day to avoid using electricity at a more expensive rate. The peak time-of-use (TOU) rates can be double the price compared to off-peak rates.
