The construction of a solar PV plant in Burkina Faso - one of the country's first independent power producer projects - is set to be accelerated after receiving a concessional financing package. The project is to design, construct and operate an 18MW solar power plant in Doudou, 250 kilometres west of the capital, Ouagadougou. ...

Zina Solar PV Park is a 27MW solar PV power project. It is located in Boucle du Mouhoun, Burkina Faso. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in a single phase. Post completion of construction, the project got commissioned in May 2024.

Explore the solar photovoltaic (PV) potential across 2 locations in Burkina Faso, from Ouagadougou to Bobo-Dioulasso. We have utilized empirical solar and meteorological data obtained from NASA's POWER API to determine solar PV ...

Burkina Faso takes a significant stride in securing private investments in the energy sector as Mireille MEDA/NANA, the Director of Renewable Energies, spearheads the validation workshop for the national action plan. Focused on risk mitigation tools linked to photovoltaic mini-solar network investments, the plan addresses regulatory uncertainties and ...

The project is being developed by Quadran Burkina Faso. Mihia Holding and Syscom Network are currently owning the project having ownership stake of 70% and 30% respectively. Zano Solar PV Park is a ground-mounted solar project. The project is expected to generate 48,000MWh electricity and supply enough clean energy to power 75,000 households.
