Pigeon House Power can supply & install residential solar power solutions to suit your needs. We advise on how your home can utilise the Aust. Gov't STC Incentives for solar installation. 1 in 4 Australian homes now have Solar Power!

Why should you choose pigeon house power?

Pigeon House Power provide a free no obligation consultation and will work with you to meet your power needs. A residential solar PV system will generate electricity at a lower cost than purchasing from a utility simply by harvesting the power of the sun! Reduce the future increase of utility based power prices.

Who is pigeon house power?

Pigeon House Power owned by local Ulladulla residents. Our goals are to provide quality Solar Power Installations and components at competitive prices backed by excellent after sales service guarantee. Family owned and operated by Ben and Candice Rudd. Ben is a fully licensed electrician and his wife Candice runs the administration.

Can pigeon house power supply my home EV charging solution?

At Pigeon House Power we can supply your home EV charging solution. Electric vehicle supply equipment, or "EVSE," is actually the proper term for what many call 'EV chargers'. We are accredited installers and you can rely on our strong after sales support. Most EV's supplied in Australia will come with a portable charge plug lead supplied.

Do pigeons live under solar panels?

In addition, pigeons can be incredibly persistent, especially if they have already built nests under the solar panels. Removing nests and droppings can be dangerous and a tricky challenge. In addition, if the job is not done correctly, the critters will stay, discover an opening, or return, wasting everyone's time and money.
