

Who is Super Star Solar?

Super Star Renewable Energy Limited (SSREL), also known as Super Star Solar in Bangladesh, is the leading solar company in Bangladesh, providing innovative solar energy solutions since July 2013. We are dedicated to bringing electricity to underserved communities through top-quality solar systems tailored to remote areas.

How many solar homes are there in Bangladesh?

As of 2019, over 4 million solar home systems (SHS) have been installed in rural off-grid communities in Bangladesh--creating over 70,000 jobs and bringing electric power to more than 18 million people or 11% of the country's population (IDCOL, n.d.). This is about 12.2% of all connected users in Bangladesh (GoB, 2019).

What are small-scale solar solutions?

Small-scale solar solutions offer a cost-effective, climate-friendly alternative to delivering electric power to the off-grid rural population of Bangladesh. As of 2019, over 4 million solar home systems (SHSs) have been installed.

Are solar home systems a sustainable solution?

Solar home systems (SHSs) offer a cost-effective, climate-friendly alternative power source in off-grid communities. SHS serve both climate adaptation and mitigation as a win-win solution. There are opportunities for SHS to accomplish multiple sustainable development goals (SDGs) as co-benefits.

Can solar home systems overcome domestic energy poverty in developing regions?

The unlocked potential of solar home systems; an effective way to overcome domestic energy poverty in developing regions. Renewable Energy, 132, 1425-1435. Partial funding for this research was provided by Arthur M. Blank Fund and H.H. Powers Travel Grant with additional support from the faculty research portfolio at Oberlin College.

Are solar home systems a win-win solution for rural electrification & climate mitigation?

Solar home systems (SHSs), installed on rooftops of individual households, offer a win-win solution for rural electrification and climate mitigation. SHS have been evolving worldwide since the late 70s and early 80s.

How Grameen Shakti is providing a sustainable renewable energy solution in rural Bangladesh Grameen Shakti's socially conscious model is not only beneficial to the millions of people of the rural communities of the developing world and the societies being served but is also profitable in the long run for the investors, and other stakeholders

Super Star Renewable Energy Limited (SSREL), also known as Super Star Solar in Bangladesh, is the leading solar company in Bangladesh, providing innovative solar energy solutions since July 2013. We are dedicated to bringing electricity to underserved communities through top-quality solar systems tailored to remote areas.

The cumulative (period-wise) effect from 2000 to 2015 is a rise in CO₂ emissions of 0.105745 Mts. Fig. 11 d-e depicts Bangladesh's economic activity (GDP) and energy-related CO₂ emissions. Bangladesh's economic development has been fluctuating, with GDP growing and declining at an intermittent pace of approximately 3.3% between 2000 and ...
