Does Solid Power have 3rd party verification of battery performance claims? All I found was some 3rd party safety tests which seemed useless to me since that is a defacto requirement for solid state batteries. From what I read the Solid State battery performance tests were run at 45c temperatures which is impractical.

4 ???&#0183; Solid Power is an industry-leading developer of all-solid-state rechargeable battery technology, primarily for the electric vehicle market. Solid Power replaces the flammable liquid electrolyte contained within a conventional lithium-ion battery with a proprietary sulfide solid electrolyte. As a result, Solid Power"s all-solid-state batteries ...
