Automatically collect, store, visualize, report, and alarm on your data to simplify the energy management of digitalized electrical and energy systems in ...

2. Analyze energy usage and reduce waste: Gain energy awareness, baseline energy usage, identify areas to focus, set targets and take action. Track usage by load type (HVAC, lighting, and plug loads) and with that aggregate energy by site, building, floor, area, and zones which will result in energy usage reports by the format of monthly, daily, and hourly.
