

Spacewell energy by dexma Bosnia and Herzegovina

What is spacewell energy (DEXMA)?

Spacewell Energy (Dexma) is the Spacewell energy management tool that provides data-driven energy intelligence. Its SaaS solution enables facility and property managers, energy service providers and consultants to report on energy consumption, analyse usage patterns and inefficiencies, and detect anomalies in real-time.

Where is spacewell energy based?

Spacewell Energy currently has over 10,000 customers in 35 countries, mainly in the UK, Spain, France, Benelux and Italy. To strengthen its relationships with international customers and drive growth, the company will remain based in Barcelona but will broaden its international focus.

What is DEXMA energy intelligence?

DEXMA provides data-driven Energy Intelligence. Its SaaS solution enables facility and property managers, energy services providers, and consultants to report on energy consumption, analyze usage patterns as well as inefficiencies, and detect anomalies in real-time.

Why should you use spacewell energy?

Every day, Spacewell Energy detects energy savings opportunities to save you time and money. Discover your energy savings potential and benchmark against any industry standard. Visualise your energy data with intuitive, easy-to-use dashboards. Minimise human error while maximising energy cost savings.

Is DEXMA a good energy management software company?

October 13, 2015 - DEXMA, a leading provider in Enterprise Energy Management Software, has been identified by the Verdantix Green Quadrant Building Energy Management Software 2015 report as a leading specialist software firm that offers strong solutions in the market.

Who owns DEXMA?

Barcelona, 18 September 2014 - DEXMA, a Barcelona-based company that offers energy management software for corporate, tertiary, and industrial buildings, has raised EUR1 million in new funding. Boyser, owned by the Serra family that co-founded Fluidra, invested in the company together with existing shareholders.

The pandemic and what followed have further highlighted the importance of smart buildings and the need for remote management capabilities. In this context, building managers and owners need to stay updated with the latest smart technologies and innovations to remain relevant in the competitive facilities industry.

Guillem Corominas est cofondateur de Dexma et dirige actuellement le Département Informatique (IT) de Spacewell Energy. Depuis 2007, son rôle a évolué ; il a rejoint le premier développeur «Full-Stack» de l'entreprise et est devenu responsable des équipes
