

The Grenadines was also affected, as the lack of rainfall and very warm temperatures had all but dried up the limited supplies stored on the islands. On many occasions, water had to be taken by ferry, trucked, and then distributed on the islands. This further added strain to the already limited supply on the island of St. Vincent.

Gabriele Peters Architects Ltd has been designing residential homes and managing construction projects in Bequia and Mustique for the past 15 years. Form, function and value are the cornerstones of our practice creating tropical buildings that harvest the sun, wind and rain and bring the outside in.

The Caribbean Development Bank is supporting St. Vincent and the Grenadines" push to expand and increase its range of renewable energy options through a planned solar energy project.
