

TGC Renewables director Rob Denman said that this was one of a number of multi-megawatt projects that the company had in development, responding to interest from the farming community. The company currently had more than 10 MW in operation or under construction and aimed to boost the figure to more than 100 MW over the coming year and a ...

Independent renewable energy project developer TGC Renewables has now completed its 1.7MW Newquay-based solar farm and connected it to the National Grid. The Trevemper Farm scheme will provide renewable energy to the National Grid as well as a regular and reliable income for the landowner and the local community.

Who is TGC Renewables. TGC Renewables, originally The Green Company, was founded by Ben Cosh and

Rob Denman in 2006. Their ambition was to have an impact on climate change and energy security by making renewable energy financially viable and accessible to everybody - without asking them to change their 21st century lifestyles. Backed by the Constantine Group, ...

TGC Renewables director Rob Denman said the company's pipeline of South West solar projects is a real indicator of the interest and demand from the farming community for renewable energy. "A number of landowners have highlighted the above-average returns they are now seeing from land they have provided for green energy developments," Denman ...
