

What makes Abora solar panels different?

Abora has developed and manufactured the solar hybrid panel (PVT) with the most performance in the market. Abora is the manufacturer of the most efficient hybrid solar panel on the market. But what really makes the Abora panel different is that shorter amortization periods are achieved (between 4 and 6 years).

How do I follow Abora solar?

Follow us on Instagram, LinkedIn, Twitter or Facebook: we will share our day to day with you! Discover Abora Solar, the leading Spanish manufacturer of hybrid solar panels. Increase your energy efficiency and save on your bill.

What is Abora solar aH72sk?

Spanish PVT specialist Abora Solar has developed aH72SK modules, which combine solar panels with power conversion efficiencies of 17.8% and a thermal efficiency rating of around 70%. Its total area is 1.96 square meters. The aH72SK panel. Spain's Abora Solar has launched new PVT products with overall efficiencies of around 89%.

Why should you invest in Abora technology?

For this reason, Abora's technology aims to accelerate the transition towards changing the energy model by betting on a product that, because it is profitable, attracts the market. The Sustainable Development Goals are a call to action to end poverty, protect the planet and ensure peace and prosperity everywhere.

What makes Abora unique?

Over the years, Abora has demonstrated its leadership in the field of innovation. Its avant-garde character has been recognized on several occasions at the national and international levels. As members of the UN Global Compact, we work to help achieve the UN Sustainable Development Goals (SDGs).

Why should you choose Abora?

At Abora, each of the panels we manufacture is thoroughly inspected. Technology has to meet the needs of our society. And being close is the only way to understand our needs. Seriousness, thoroughness, respect and commitment to what we do, is our only way to understand our work. Projects don't end when they're installed, that's where they start.

El Panel Solar híbrido de Abora es el más eficiente y te propone toda la energía que necesitas. Ya quieras producir tu propia energía, calentar tu piscina o reducir tus emisiones, con el Panel Solar Híbrido aHTech tienes potencia para producir y ahorrar. Aquí va una pequeña muestra con trillones de cosas a tu alcance.

Optimisation de l'espace. Si votre maison a peu d'espace sur le toit ou au sol, l'installation de panneaux

hybrides peut signifier une utilisation plus efficace de cet espace, par rapport aux syst&#232;mes photovolta&#239;ques et thermiques, puisque le panneau solaire hybride produit plus d'&#233;nergie par m2.

D&#233;couvrez Abora, fabricant espagnol de panneaux solaires hybrides. Augmentez votre efficacit&#233; &#233;nerg&#233;tique et &#233;conomisez sur votre facture.

The new Solar, Heat & Electricity (SHE) technology breaks with the traditional concept of hybrid solar panels linking photovoltaic panels and thermal solar collectors. Abora has patented a disruptive innovation that completely changes the structure and manufacturing process of hybrid solar panels, which is intended to increase the energy ...

How can hybrid solar panels help the canning industry? Abora's hybrid solar panels with aHTech &#174; technology are ideal for the canning industry, thanks to their high simultaneous production of thermal and electrical energy.. Thanks to the hybrid solar installation, you will considerably reduce your energy costs (diesel, propane gas, electricity, etc.).

Abora's hybrid solar panels with aHTech&#174; technology are ideal for the dairy industry due to their high simultaneous production of thermal and electrical energy. Thanks to the hybrid solar installation, you will considerably reduce your energy costs (diesel, propane, electricity, etc.). In addition, you will make your company more profitable ...

Wir haben uns f&#252;r die PVT-Kollektoren von Abora entschieden, weil wir im selben Modul W&#228;rme- und Photovoltaiktechnologie einsetzen k&#246;nnen. In Bezug auf die Rentabilit&#228;t konnten wir hier feststellen, dass die PVT-Kollektoren vom ersten Betriebstag an bereits einen Teil unserer Rechnungen gesenkt haben, sowohl f&#252;r den Gasteil als auch f&#252;r ...

The Abora Hybrid Solar Panel is the most efficient and offers all the energy you need. Whether you want to produce your own energy, heat your pool or reduce your emissions, with the aHTech Hybrid Solar Panel, you have the power to produce and save. Here's a little sample with trillions of things at your fingertips.

Un panel solar h&#237;brido permite generar electricidad y agua caliente simult&#225;neamente. Gracias a su eficiencia, aprovechas al m&#225;ximo la radiaci&#243;n solar. Gracias a su doble generaci&#243;n de energ&#237;a, electricidad y calor, nuestros paneles solares h&#237;bridos convierten silenciosamente la luz solar en energ&#237;a durante d&#233;cadas.
