

United Arab Emirates Register on the Solar Energy Platform

Does the United Arab Emirates have solar power?

While being a major oil producing country, the United Arab Emirates (UAE) has taken steps to introduce solar power on a large scale. However, solar power still accounts for a small share of energy production in the country.

What is the future of energy in the UAE?

The focus is very much on solar energy (primarily solar PV); however, there are ambitious plans around green hydrogen, as well as opportunities for wind, hydro, storage and waste-to-energy. In 2023, the UAE hosted the UN Climate Change Conference, COP28.

What are the different solar power plants & projects in the UAE?

This page provides information about the various solar power plants and projects in the UAE. Al Dhafra Solar PV is the world's largest single-site solar power plant. The 2GW Al Dhafra Solar PV plant was inaugurated in November 2023. It was built in a single phase.

Will Ras Al Khaimah build a 1.2GW solar project?

Ras Al Khaimah has revealed a strategy in January 2019 of building a 1.2GW solar project consisting of 600MW of rooftop solar and 600MW of utility-scale projects called Barjeel as part of the emirate's strategy in achieving 30% energy efficiency improvements, 20% water savings and 20% renewable energy generation by 2040.

What is Abu Dhabi's solar power project called?

Abu Dhabi's solar power project is a large-scale initiative that ensures Abu Dhabi holds three of the largest single-site solar power plants in the world. Once operational, the project intends to generate enough electricity to power an estimated 160,000 homes across the UAE and reduce Abu Dhabi's carbon emissions by up to 2.4 million tonnes per year.

How many emirates are there in the UAE?

There are seven emirates, each with its own Ruler: Abu Dhabi; Ajman; Dubai; Fujairah, Ras Al Khaimah ("RAK") (which joined the federation in 1972); Sharjah; and Umm Al Quwain. The UAE has both federal level and emirate level laws and regulations that govern its renewable energy regime.
