Comparatively, partial-home battery backup systems usually store around 10 to 15 kWh. Given that power outages are infrequent in most parts of the country, a partial-home battery backup system is generally all you'll need. But, if your utility isn't always reliable for power, whole-home battery backup may be the way to go.

Why it made the cut: This strikes the best balance of features, power, outlets, and price for most people. Specs. Power/Watts: 1500AV/900W Battery & Surge Protected: 6 outlets Surge Protected Only ...
