

Vattenfall energy storage South Georgia and South Sandwich Islands

Where is Vattenfall constructing a battery storage facility?

Vattenfall is constructing an unique battery storage facility in Uppsala, Sweden. A 22 MW battery is operational at one of Europe's largest onshore wind farms, Pen y Cymoedd. At the Princess Alexia wind farm in the Netherlands, 88 BMW batteries have been connected to form a mega battery for storing electricity from wind energy.

How does Vattenfall work?

Vattenfall operates large battery storage systems in combination with wind and solar parks at several locations in Europe. These combined systems, also known as hybrid parks, balance the feed-in for greater stability of the power grid. Vattenfall's newly built Haringvliet Energy Park in the Netherlands is the largest hybrid park in Europe.

How does Vattenfall use battery storage?

Vattenfall also offers batteries as fossil-free storage solutions. With battery storage, industrial customers can manage their consumption more flexibly by capping peak loads, with the so-called peak shaving. Peak shaving is a technique that lowers power consumption in times of maximum demand and thus reduces costs.

What is the battery show & energy storage South?

As the battery industry takes on the next frontier of stationary storage, The Battery Show and Electric & Hybrid Vehicle Technology Expo South will co-locate with Energy Storage South to feature an expanded focus on the energy storage systems pivotal for H/EV, renewables, commercial buildings, and critical facilities.

What is Vattenfall doing in the Netherlands?

With the Haringvliet hybrid energy park in the Netherlands, Vattenfall is combining the three technologies of battery, wind and solar for the first time. Vattenfall is constructing an unique battery storage facility in Uppsala, Sweden. A 22 MW battery is operational at one of Europe's largest onshore wind farms, Pen y Cymoedd.

What happened to South Georgia and the South Sandwich Islands?

In 1985, South Georgia and the South Sandwich Islands ceased to be administered as a Falkland Islands Dependency and became a separate territory. The King Edward Point base, which had become a small military garrison after the Falklands War, returned to civilian use in 2001 and is now operated by the British Antarctic Survey.
