What does E01 mean on a solar charge controller?

Solar Charge Controller E01 in the MPPT Solar Charge Controller indicates the same as a PWM controller, which is the battery in low voltage. Like e01 on solar controller, e02 is another common fault code. The error message is also point to the load, reconnect or replace the load to fix it.

What does E04 mean on a solar charge controller?

E04 - Battery Over voltage or Load off E05 - Solar Panel Over Current, Controller stop working solar charge controller Error code E01 appears when the battery bank is at low voltage and the charge controller cannot charge it. To correct this, first charge the battery bank using AC chargers or replace the battery with a new one.

What is error code E02 on solar charge controller?

Like e01 on solar controller, e02 is another common fault code. The error message is also point to the load, reconnect or replace the load to fix it. The solar charge controller will display an error code if there is a problem. The solar charge controller error codes are not always the same.

What does E03 mean on a solar charge controller?

E03 - Load short circuit or Load off E04 - Battery Over voltage or Load off E05 - Solar Panel Over Current, Controller stop working solar charge controller Error code E01 appears when the battery bank is at low voltage and the charge controller cannot charge it.

What is a solar charge controller error code?

The solar charge controller error codes are not always the same. For example, the controller may display an error code when the solar power it is receiving is insufficient to start charging the batteries. This is usually the case when the battery bank is partially discharged.

What does E01 & E02 mean on an MPPT controller?

For MPPT controllers, E01 usually represents an overcurrent warning, while E02 warns you of high PV voltages. Responding to these alerts can save your system from severe damage! Brands like Victron Energy and Zamp have specific error codes that range from Err 1 to Err 24 and Fault Code: B01 - 601.
