

Which company should I contact for photovoltaic panel repair

Are solar panel repairs a part of our maintenance services?

Certainly, solar panel repairs are a part of our maintenance services. Our MCS & NICEIC accredited repair team can tackle a range of issues, ensuring your solar panels return to optimal performance swiftly. Typical issues requiring solar panel repairs include micro-cracks, hot spots, and PID.

Who should I contact for solar panel maintenance?

Perhaps friends, neighbours, or family members can recommend the company they use for solar panel maintenance. It's important to check, however, whether the solar panel maintenance company you contact has experience with your particular brand of panels, battery, and inverter. Lastly, don't forget to cross-check any recommendations on Checkatrade!

How do I choose a solar panel repair company?

Ideally, you'll choose a solar panel repair company that can help to service and repair your solar panel system for many years to come. Help get that selection right first time by checking out online reviews from previous customers. For such an important investment in your home, this simple action will provide the reassurance you need.

Do you need a solar panel maintenance company?

Solar panels are growing in popularity. Perhaps friends, neighbours, or family members can recommend the company they use for solar panel maintenance. It's important to check, however, whether the solar panel maintenance company you contact has experience with your particular brand of panels, battery, and inverter.

Can a damaged solar panel be repaired?

Damaged solar panels can sometimes be repaired, but severely cracked panels will need to be replaced. We recommend choosing a company that is MCS-certified or accredited by HIES, whether you're looking for solar panel installation or solar panel maintenance near you. What is MCS certification?

When should you hire a certified solar panel maintenance company?

If you've noticed an issue with your solar panels or battery, it's important to find a certified solar panel maintenance company near you as soon as possible. The sooner you can nip any problems in the bud, the better.
