

Wolong offers an integrated PV and storage system for households. Distinguished by its compact and flexible design, high safety, and intelligent management features, it is ideally suited for various home energy storage applications. 01. Slim but powerful. Expandable to 5.12-15.36kWh. 02. 5 years" product warranty. 03. Pre-wired design with ...

Focusing on the two core issues of safety and economy in energy storage, we will strengthen the module control technology and thermal management technology of energy storage systems, and improve the safety and energy conversion efficiency of energy storage systems. ... Mail ESS-Asia@wolong . Africa. Wolong ESS (Africa) Mail ESS-Africa@wolong ...

Focusing on the two core issues of safety and economy in energy storage, we will strengthen the module control technology and thermal management technology of energy storage systems, and improve the safety and energy conversion ...

The "solar-storage-charging" integration combines solar power, energy storage, and charging into one system. It stores excess solar energy in batteries, supplies power during peak times, and charges during off-peak times, reducing costs and balancing the load.

Focusing on the two core issues of safety and economy in energy storage, we will strengthen the module control technology and thermal management technology of energy storage systems, and improve the safety and energy conversion efficiency of energy storage systems. ... Project in Shangyu Park, Wolong Electric Drive Group Co., Ltd. 0.558MW/1 ...

Wolong single phase low voltage energy storage system This residential ESS comes with a 3.6~6kW hybrid single-phase inverter and 5~30kWh low voltage battery modules. With mature and stable BMS technology, the system is safer to use and easier to install and expand.

700W outdoor mobile power, one-piece molded closed alloy shell, can do IP67 level waterproof and dustproof; fanless natural cooling, no sound when using; ternary lithium battery Automotive-grade power core; durable 1 degree of electricity; 220V high power output to meet the charging needs of different devices.

Founded in 1984 at the base of the Wolong mountain in Zhejiang Province, China, Wolong has grown from an electric motor manufacturer to a global leader in electric and new energy technologies. The Wolong Group is firmly aligned with environmentally respectful trends and carbon neutral goals as it strives to become a leading global enterprise.

Focusing on the two core issues of safety and economy in energy storage, we will strengthen the module
